TABLE OF CONTENTS

No one seeks or desires pain simply because it is pain. Rather, there are rare occasions when great joy is gained through intense hardship and effort. To take a simpler example: which of us would ever undertake strenuous physical exercise unless we expected to derive some benefit from it?

INTRODUCTION

A person who desires to experience true joy does what is right without needing any external incentive. Someone who operates with such freedom puts forth the necessary effort for the sake of success. The joy and satisfaction gained through these moments highlight the true importance and value of the endeavor.

Although every task differs, each action carries its own result and meaning. Tasks undertaken with care and patience ultimately bring about great opportunities and success

.

HELLO, I'M KBANESH BEWKET

I am a Software Engineer, Graphic Designer, and Video Editor. With a strong background in software engineering (React, Next.js, NestJS, Supabase) combined with creative expertise in UI/UX design (Figma) and video production (CapCut), I craft high-impact digital products, engaging visual designs, and dynamic video content.

I am passionate about turning complex ideas into clean, user-friendly, and beautifully designed digital experiences

MY EDUCATION

Bachelor of Science in Software Engineering
Bahir Dar Institute of Technology (BiT), Bahir Dar University
(Graduated: June 2026)

Key Focus Areas: Software Engineering, Full-Stack Web Development, Database Management, and UI/UX Design Concepts

Graphic Design & UI/UX: Canva, Adobe Photoshop basics, Wireframing, Prototyping, Brand Identity & Social Media Design

PERSONAL SKILLS

Personal & Soft Skills

Analytical Problem-Solving
Fast Learner & Adaptable
Creative & Visual Thinking
Attention to Detail

Technical Skills

- Software Engineering & Web Development:
- Languages: JavaScript, TypeScript, C++, HTML5, CSS3/Tailwind CSS
- Frameworks & Libraries: React.js, Next.js, NestJS, Node.js
- Databases & Tools: PostgreSQL, MySQL, MongoDB, Prisma ORM, Git/GitHub
- Graphic Design & UI/UX:
- Tools: Figma, Canva, Adobe Photoshop (Basics)
- Skills: Wireframing, Prototyping, Brand Identity, Social Media Posters, Banner Design
- Video Editing & Content Creation:
- Tools: CapCut (Desktop & Mobile)

WORK EXPERIENCE

Software Engineering Intern
Bahir Dar University Online Clearance System Project | Bahir Dar, Ethiopia
Grade Earned: A+

Contributed to the full-stack development of the university-wide automated Online Clearance System.
Designed and implemented backend system tracking mechanisms and database queries to monitor clearance statuses efficiently.
Collaborated with the senior engineering team to enhance user interface responsiveness and streamline operational workflows.
